Color ....................................................................... 3.5 SRM

ITEM NUMBER
6659 ......................................................... Whole Kernel, 50-pound bag
6660 .......................................................... Preground, 50-pound bag

CERTIFICATION
Kosher: UMK Pareve

STORAGE AND SHELF LIFE
Store in a temperate, low humidity, pest free environment at temperatures of <90 °F. Improperly stored malts are prone to loss of freshness and flavor. Whole kernel diastatic and preground malts are best when used within 6 months from date of manufacture.

APPLICATIONS
Rich base malt that offers complexity and depth with a toasted note at the finish

MALT STYLE
Specialty base malt

SENSORY CHARACTERISTICS
Color .................................................... Contributes light golden color
Flavor .................................................... Rich malty; hints of biscuity notes; finishes exceptionally clean

SUGGESTED USAGE RATES
10% or more All but the lightest beer styles for additional flavor; Especially helpful for developing warm, malty and light biscuity flavors; High gravity beers like Bock beer Up to 100% Vienna and Oktoberfest/Marzen beer styles, Ales and rich, full flavored dark beers

AVERAGE SENSORY PROFILE*

CHARACTERISTICS

- A superb example of a classic Vienna malt
- Finishes exceptionally clean and contributes light golden hues
- Use in any beer style that benefits from rich malty character
- Great for classic Vienna, Oktoberfest, and Marzen beers
- Less modified than Pale Ale Malt and less intensely kilned than Munich Malts, delivering malty flavor with less sweetness than Pale Ale and less color than Munich Malts
- Sufficient enzyme level to support the inclusion of even the most demanding specialty malts without extending the brewing cycle

*The average sensory profile shows the intensity of flavors and aromas perceived in a Hot Steep wort by the Briess Malt Sensory Panel. Usage will influence how these flavors are perceived in the final beer.
